Chicago Wheat Takes Another Header and Shows No Indication of Bottom.

Free Liquidation of July Grain Held to Stave Off an Expected Squeeze Caused the Sudden Decline-Pork Much Stronger.

## MONEY, STOCKS AND BONDS. So Little Disposition to Trade that Brokers

Are Beginning to Grumble. NEW YORK, July 16,-Money on call was easy, ranging from 112 to 2 per cent., the last loan being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 512@7 per cent. Sterling exchange was quiet and steady at \$4.8434 for sixty-day bills and \$4.8634 for

The total sales of stocks to-day were 55,. 404 shares, including the following: Atchison, 4,120; Chicago Gas, 3,510; St. Paul, 9,400; Union Pacific, 2,960.

The general indisposition to operate in the stock market has grown to such proportions that even the traders are complaining that the fluctuations are insufficient to afford a chance of profit on either side, and the outside public are out entirely, so that the commission business transacted is almost nothing. Notwithstanding this there is general confidence in the inture and no inclination to part with their holdings is detected on the part of the present owners of American securities, and the other side of the ocean, and that Amerlean securities are looked upon with great favor, and the late purchases for foreign account, even though they are very limit-ed, have an influence to create confidence here. The beginning of the movement of the new crops and the weaker tone to the foreign exchanges have done away entirely with the gold-export scare, and nothing is now beard of it in the street. The dullness and stagnation of the market to-day were equal to anything seen of late, and the trading was more barren of feature than it has been for months. The only important movement was the decline in Cordage, while no animation was shown in anything tracied in. The invitation of the Postmaster-general for bids for carrying the mails helped Pacific Mail at the opening. but its influence was soon lost. The final gain of the stock is a small fraction. Burlington showed evidence of more interest than any other stock on the regular list, though St. Paul, as usual, was more active, but in neither was the extreme fluctuation for the day more than a fraction. The general market opened tirm under the influ-

tions only, except in Cordage, which is down 14 per cent. The close was dull and steady at the figures. Railroad bonds were equally as dull and lifeless as stocks, to-day, though a little character was given to the trading by the activity and strength in Atchison incomes, which, however, rose only a small fraction. Their sales reached \$109,000, out of a total of only \$592,000 for the day. A firm tone resulted in generally higher figures, but the gains are, in all

ence of a few toreign bnying orders, but be-

came heavy immediately, losing almost all

the advantage, and while presenting a firm

front during the afternoon the changes in

quotations were so insignificant that the

final changes were for the smallest frac-

cases, insignificant. Government bonds were dull but firm.

TRADING AT CHICAGO.

### Futures Reach as Low as 84% Cents, Afterward Recovering.

CHICAGO, July 16.—Wheat opened with almost every condition in favor of the "bears;" good weather, liberal receipts and tory, 11@14c; Elgins, 18c. Cheese active weak cables all led to discouragement on | and firm; part skims, 3@64c. the part of holders, and there was a strong selling pressure for an hour or so after the opening, which carried the prices off 78c fr' m last night's close, and it looked for a time as if still lower prices were inevitsole, but this was prevented by purchases to protect puts. The weakest feature, perhape, was the free liquidation of July wheat, which has been held in anticipation of a squeeze in that month. With this hope gone it was flung on the market recklessly, and fell from 86@865sc. early, to 8434c, and carried December down with it from 861sc early to 8534c. After the July "longs" had liquidated and selling pressure was removed there was a quick recovery and July sold back to 851ge, and December to 8634c. Cables were somewhat conflicting. Counselman and Day had a dispatch saying that Paris opened easier, but came strong and recovered all the decline. On the other hand Hately Brothers' cable quoted Paris, London and Antwerp demoralized. Pardridge, Cudaby and a number of other big "shorts" took advantage of the break to cover a big line of "short" wheat. This buying became so sharp that the scalpers who had sold "short" so freely became alarmed and began to buy in. The advice in corn about the same time helped to give strength to wheat. The market continued strong after the noon hour, notwithstanding unfavorable cables. The Board of Trade's dispatch quoted Paris and Berlin as both lower, but this was lost sight of in view of the sharp up-turrn in corn and the advance in pork. "Shorts" covered freely, and December sold up to 867sc, and at 1 o'clock was about 8634c. Pardridge began to put out a "short" line and the advance was checked, but another rally carried the price to 87c, and the close was 1sc under

Corn started at about yesterday's close, grew weak and sold off some, but the demand soon increased, and New York being higher, especially for July, the market here strengthened, and there was a rapid advance. The receipts were about seventy cars below the estimates, and the estimate for to-morrow was only for 438 cars. These figures were factors in the strength, which continued. There was also a sharp demand for cash. No. 2 selling up to 60c and No. 2 vellow to 61c. The "shorts" got scared and helped along the bulge by covering their sales. September opened at 517sc, sold off to 514ge, then rallied to 523gc, and closed

Oats were rather quiet, weaker and prices ranged lower and closed with a net loss of 12c on July, 1sc on August and steady on September. There were no special features developed, few orders being on the market. Provisions opened higher on smaller receipts of hogs than expected and an advance of 10c in prices at the yards. A strong feeling was developed, especially in pork and ribs. The story that France was about to remove the embargo on hog prodnets started it, and with every advance "shorts" came in to cover. Ream and Pardridge bought freely and there was a steady advance in September pork to \$11.10. This depot, 73@7312c; No. 2 mixed, July, 69@70c; was followed by a recession to \$10.8712, but August, 65@66c; September, 6212@6312c; Oc-

### INDIANAPOLIS MARKETS. Trade Slow, Prices Steady, the Money Mar-

ket steady.

ket Fasy Covers the Local Situation. INDIANAPOLIS, July 16,-Trade in most departments is dull, and clerks are arranging for their summer trips for a few weeks of easy times, followed by what promises to be the largest fall business in many years, so favorable are the conditions. In prices fluctuations are few and unimportant. The visible supply of Rio coffee is less than at this time a year ago, and markets show a firmer tone of late. Holders are very firm in their views. But in face of this stands the fact that the new crop which is beginning to arrive is reported unusually large. Raw sugars are very firm. The lowest price of the season in sugar is no doubt a thing of the past. The large fruit crop and the low prices insure an active market for the next few weeks. Poultry and eggs are still in active demand. and no accumulations of stock; firm at quotations. Fruits and vegetables are moving freely, at good prices when the abundance of articles under the two heads is taken into consideration.

Wheat went off to-day 3 cents, and buyers were cautious in bidding at that figure. Corn was firm at Wednesday's range of prices. Oats on increasing receipts ruled easier. Track bids to-day ruled as follows: Wheat—No. 2 red, 8112c; No. 3 red, 77c; rejected, 60@70c; unmerchantable, 50@60c.
